Summary

Since 2011, I've been making a living as a Fullstack Web Developer. I'm passionate about coding, problem-solving and I like the fast-paced, energetic environments that startups often have. Building things fast, I thrive working alone and also within a team. The ideal type of project I'd like to work on is the one with the most positive impact.

I'm part of the "Top 3% Freelancers in the World" community (Toptal.com)

I have experience with the following technologies:

PHP, Laravel, Zend, Phalcon, Yii framework, Codeigniter, REST APIs, Microservices, Queues, Javascript, ReactJS, EmberJS, AngularJS, jQuery MySQL, PostgreSQL, MariaDB, Redis, Redshift
Linux, Git, AWS, Google SDKs
HTML5, CSS3, Bootstrap, Tailwind

Experience

Senior Full-Stack Web Developer

Remote Work

Jan 2021 - Present (1 year 3 months +)

Medical Services Software

The client is developing a platform for health services by integrating multiple 3rd party services in the same system and providing these services to clients in a more efficient and simple way.

Skills used: PHP/Laravel, Queues, MySql/MSSql, JavaScript/jQuery/vueJS, AWS S3, DevOps, CSS, HTML, Bootstrap

Co-Founder

Code News

May 2019 - Present (2 years 11 months +)

I've mainly worked on the backend side of the project creating a RESTful API to communicate with the app, but also on the frontend on the admin panel and landing page.

Senior Full-Stack Web Developer

windeln.de SE

Jul 2020 - Apr 2021 (10 months)

I've mainly worked on the backend side of the project built on the Spryker Architecture. A challenge in this project was to understand as much as possible how this architecture worked. I've managed to get a certification from the Spryker team and to deploy a couple of things learned into the project.
